Shutter Range

01

MIMEO COMPOSITE SHUTTERS

- Made in EU from high quality U-PVC
- Aerospace-grade, aluminum core
- Unmatched strength & stability
- 100% waterproof | Ideal for bathrooms, kitchens
- & wet rooms
- Easy to maintain | Require minimal upkeep
- 10-year warranty | Guaranteed performance
- Fast turnaround time | Installed within 4 weeks

The Ultimate Waterproof Solution

One of the key benefits of our Mimeo composite shutters is that they are 100% waterproof, making them an ideal choice for rooms with high humidity, such as the kitchen and bathroom. Unlike other materials that may warp, crack, or deteriorate when exposed to moisture, our composite shutters are designed to withstand even the harshest conditions without compromising their appearance or functionality.

01 Full Height Shutters

Our full height shutters are a classic and popular option, designed to cover your entire window. These versatile shutters often include a divider rail or a split in the louver controls, giving you the flexibility to adjust the top and bottom slats independently. This allows for precise control over light and privacy.

Full height shutters are optimal for complete window coverage, controlling light, and insulating any window, especially larger ones and doors.

Beyond their elegant appearance, full height shutters excel at insulation, privacy, and noise control. While they are particularly well-suited for tall windows, French doors, and patio doors, their adaptable design means they can enhance any window in your home. They provide excellent year-round benefits, offering fantastic insulation to retain warmth during colder months and effectively keeping rooms cool by blocking harsh sunlight in the summer.

TO BOOK YOUR FREE CONSULTATION, CALL 01748322253 OR WHATSAPP 07457417933 TODAY!

02 Tier On Tier Shutters

Tier-on-Tier Shutters offer a flexible and stylish window dressing solution that combines functionality with timeless elegance. These shutters are divided into two separate panels each operating independently. Their split design lets you open the top for light while keeping the bottom closed for privacy.

Crafted to fit any window shape, tier-on-tier shutters are custom-made for a seamless finish and are available in a variety of finishes and louvre sizes. Whether you choose wood for a warm, natural feel or a hardwearing composite for moisture-prone areas, these shutters are built to last and easy to maintain. They're especially popular in living rooms, bedrooms, and bathrooms where adjustable light control is key.

Tier-on-tier shutters are best for offering flexible light control and privacy in one elegant solution.

03 Café Style Shutters

Café Style Shutters are a charming and practical window solution that covers only the lower portion of your window, leaving the top half open to allow natural light to flood in. They're ideal for street-facing rooms, where you want to feel connected to the outside world while still enjoying a sense of seclusion.

These shutters add a touch of character and timeless appeal to any home, especially in period properties or rooms with decorative window features you'd like to showcase. Available in a variety of finishes & louvre sizes, café shutters can be tailored to suit both traditional & contemporary interiors. Easy to clean, low maintenance, and a great choice for enhancing privacy while brightening up your space with a light, airy feel.

Café style shutters are best for balancing privacy and natural light while adding a charming, open feel to any room.

TO BOOK YOUR FREE CONSULTATION, CALL 01748322253 OR WHATSAPP 07457417933 TODAY!

04 Special Shape Shutters

Special Shaped Shutters are custom-designed to fit uniquely shaped windows such as arches, circles, triangles, or angled frames, offering a seamless and stylish solution where traditional window coverings fall short.

Our experts make sure that no matter the size & shape of your window, we find an expert and bespoke shading solution for it.

05 Tracked Shutters

Tracked Shutters are the ideal solution for large openings, sliding doors, or floor-to-ceiling windows, offering a sleek and modern look with practical functionality. Mounted on a track system, they slide smoothly and effortlessly, making them perfect for wide spaces like patios or open-plan living areas.

Tracked shutters provide excellent adjustable light control and privacy while enhancing the room's style with clean, elegant lines.

06 Solid Panel Wood

Solid Panel Wood Shutters bring classic sophistication to any space with their timeless design and rich, handcrafted finish. Made from high-quality wood, these shutters offer superior light blockage and insulation, making them perfect for bedrooms or draughty period homes. Their elegant, solid panels add a sense of warmth and heritage, making them a beautiful fit for traditional interiors.

Slat Sizes & Tilt Rods

Slat Sizes:

64 mm

76 mm

89 mm

Tilt Rods:

Hidden tilt rod

This type of tilt rod is completely hidden inside the tile of the shutter panel.

Central tilt rod

This type is a vertical control bar mounted down the center of shutter slats.

Offset tilt rod

An offset tilt rod is a control bar placed slightly to the side of the shutter panel, instead of the center.

Hidden tilt rod

Completely hidden inside the tile of the shutter panel. Moving one slat will move all slats attached to the rod.

Sleep deeper, work better, and protect your interiors!

Blackout Blinds offer 100% light blocking for total darkness, ideal for shift workers, nurseries, or light-sensitive sleepers. Made with a 3-layer fabric system, they also reduce outside noise by up to 30% and protect furniture from fading with a UV-resistant lining.

Blackout blinds are best for creating complete darkness, enhancing sleep quality while offering insulation, noise reduction, and UV protection.

In addition to enhancing comfort, blackout blinds offer excellent energy efficiency minimizing heat loss in the winter and blocking solar heat in the summer. With cordless and motorized options available, they're not only sleek and modern but also child-safe and easy to use. These blinds combine function and style to deliver privacy, insulation, and peace of mind all in one. Made to measure!
