

VERTICAL BLINDS

VERTICAL BLINDS

Vertical blinds are the perfect solution for large glass expanses, sloped windows and bespoke bays. A timeless addition to any window and a really easy way to filter the light.

With beautiful on-trend plains and patterns, plus unique velvets there's plenty of choice. Plus bespoke features allow for a truly personalised finished to suit your needs. You can choose to draw to the left, right or split in the middle and selected fabrics are available in a choice of 89mm or 127mm louvre widths. You can also opt for chainless weights to make your new blinds more child safe and pet friendly.

TECHNICAL PERFORMANCE

We offer a range of Vertical blind fabrics with specific performance properties, which means some Vertical fabrics are better suited to specific rooms. Look out for the following symbols on the fabric labels to indicate any specific performance properties.

SYMBOLS KEY

	
Roller	Vertical
	
ST Semi Transparent	STD Standard Shading
	
DIM Dim-Out	BLK Blackout
	
Suitable for computer environments	Recommended for computer environments
	
FR Fire Retardant	Recycled
	
Suitable for moist conditions	Recommended for moist conditions
	
Sponge Clean	Sponge Clean with Water

CHILD SAFETY

Your stockist can advise you on child safety options

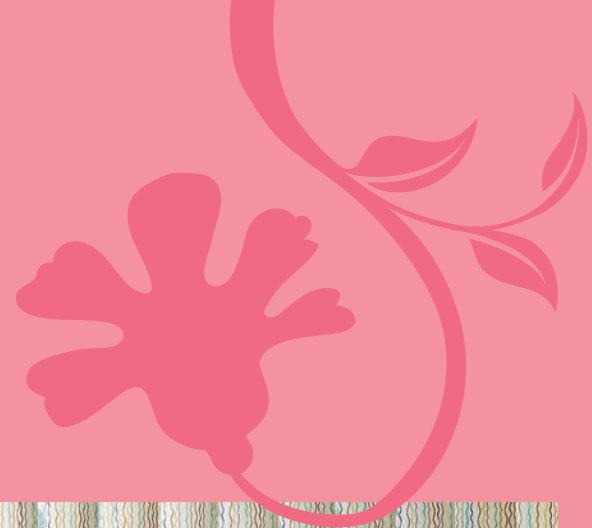

Secret Garden

UNEARTH THE SECRETS OF THIS BEAUTIFUL CAPSULE COLLECTION

Inspired by nature this collection includes soft florals, bold graphical prints and unpredictable patterns, but there's a surprising secret... the colours add an instant WOW factor.

RECYCLED FABRICS

Whether you're looking for a plain, print or jacquard option, 64% of our Vertical fabrics are made from 50% or more recycled polyester yarn, so you can get the look you want with a more sustainable fabric choice.

Here's how this...

turns into this...

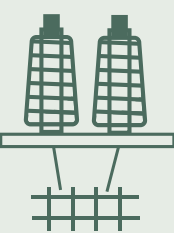

PET Polyester bottles are sorted

The bottles are ground down

Plastic granules are made into yarn

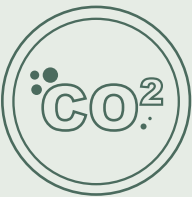

This yarn is then woven into fabric

Why choose recycled fabrics?

Production processes use less water, chemicals and energy than virgin polyester. Recycled polyester production therefore generates less CO2 emissions than virgin polyester.

Less water

Fewer emissions

Less energy

Look out for the 'recycled' logo across our fabrics, all of these fabrics are composed of 50% or more recycled polyester yarn.
