Slat Sizes & Tilt Rods

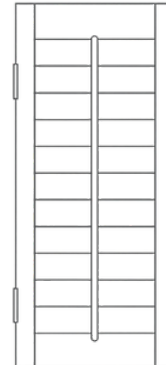

Slat Sizes:

64 mm

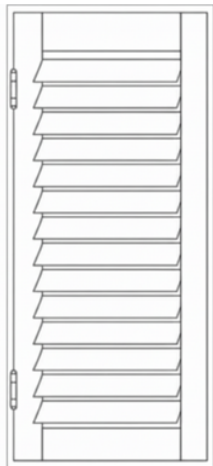

76 mm

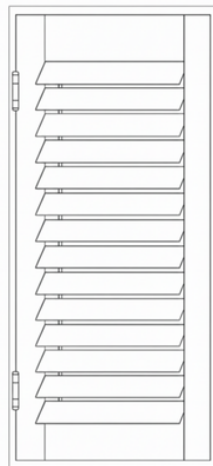

89 mm

Tilt Rods:

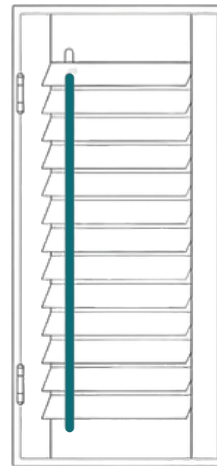

Hidden tilt rod

This type of tilt rod is completely hidden inside the tile of the shutter panel.

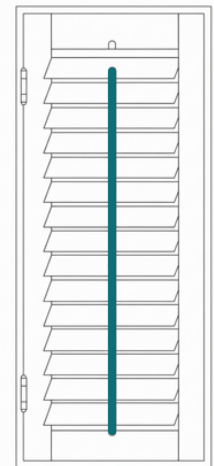

Clearview tilt rod

A control rod for the shutter that is positioned behind the slats, not visible from the front.

Offset tilt rod

An offset tilt rod is a tilt rod placed to the side of the shutter panel, instead of the center.

Central tilt rod

This type is a vertical tilt rod mounted down the center of shutter slats.

Hinges Available:

Pure White

White

Pearl

Stainless Steel

Nickel

Bright Brass

Antique Brass

Black

Hidden Hinges

Shutter Style

01 Full Height Shutters

Our full height shutters are a classic and popular option, designed to cover your entire window. These versatile shutters often include a divider rail or a split in the louver controls, giving you the flexibility to adjust the top and bottom slats independently. This allows for precise control over light and privacy.

Beyond their elegant appearance, full height shutters excel at insulation, privacy, and noise control. While they are particularly well-suited for tall windows, French doors, and patio doors, their adaptable design means they can enhance any window in your home. They provide excellent year-round benefits, offering fantastic insulation to retain warmth during colder months and effectively keeping rooms cool by blocking harsh sunlight in the summer.

Full height shutters are optimal for complete window coverage, controlling light, and insulating any window, especially larger ones and doors.

02 Tier On Tier Shutters

Tier-on-Tier Shutters offer a flexible and stylish window dressing solution that combines functionality with timeless elegance. These shutters are divided into two separate panels each operating independently. Their split design lets you open the top for light while keeping the bottom closed for privacy.

Crafted to fit any window shape, tier-on-tier shutters are custom-made for a seamless finish and are available in a variety of finishes and louvre sizes. Whether you choose wood for a warm, natural feel or a hardwearing composite for moisture-prone areas, these shutters are built to last and easy to maintain. They're especially popular in living rooms, bedrooms, and bathrooms where adjustable light control is key.

Tier-on-tier shutters are best for offering flexible light control and privacy in one elegant solution.

03 Café Style Shutters

Café Style Shutters are a charming and practical window solution that covers only the lower portion of your window, leaving the top half open to allow natural light to flood in. They're ideal for street-facing rooms, where you want to feel connected to the outside world while still enjoying a sense of seclusion.

These shutters add a touch of character and timeless appeal to any home, especially in period properties or rooms with decorative window features you'd like to showcase. Available in a variety of finishes & louvre sizes, café shutters can be tailored to suit both traditional & contemporary interiors. Easy to clean, low maintenance, and a great choice for enhancing privacy while brightening up your space with a light, airy feel.

Café style shutters are best for balancing privacy and natural light while adding a charming, open feel to any room.

04 Tracked Shutters

Tracked Shutters are the ideal solution for large openings, sliding doors, or floor-to-ceiling windows, offering a sleek and modern look with practical functionality. Mounted on a track system, they slide smoothly and effortlessly, making them perfect for wide spaces like patios or open-plan living areas.

Tracked shutters provide excellent adjustable light control and privacy while enhancing the room's style with clean, elegant lines.

Their versatile design allows multiple panels to stack neatly when opened, maximizing views and access to outdoor spaces. Built to be both durable and stylish, tracked shutters offer a long-lasting window treatment solution that complements contemporary and traditional interiors alike.

Tracked shutters are perfect for wide windows and doors, combining effortless functionality with elegant design.

05 Special Shape Shutters

Special Shaped Shutters are custom-designed to fit uniquely shaped windows such as arches, circles, triangles, or angled frames, offering a seamless and stylish solution where traditional window coverings fall short. Our experts make sure that no matter the size & shape of your window, we find an expert and bespoke shading solution for it.

06 Solid Wood Panel

Solid Wood Panel Shutters bring classic sophistication to any space with their timeless design and rich, handcrafted finish. Made from high quality wood, these shutters offer superior light blockage and insulation, making them perfect for bedrooms. Their elegant, solid panels add a sense of warmth and heritage, making them a beautiful fit for traditional interiors.

Blackout Shutters

Blackout Blinds offer 100% light blocking for total darkness, ideal for shift workers, nurseries, or light-sensitive sleepers. Made with a 3-layer fabric system, they also reduce outside noise by up to 30% & protect furniture from fading with a UV-resistant lining.

Sleep deeper, Work Better, & Protect your Interiors!

The blackout blind is discreetly housed within the shutter frame and runs in side channels, ensuring no light bleed when fully deployed. This innovative design offers complete darkness on demand, while maintaining a clean, uncluttered window aesthetic.

Blackout blinds are best for creating complete darkness, enhancing sleep quality while offering insulation, noise reduction, and UV protection.

Roller Blinds

Electric Motorized Blinds

Electric blinds are a smart & convenient choice, allowing you to control light & privacy effortlessly with the touch of a button or remote.

- Streamlined, child-safe cordless operation
- Control from anywhere with smart technology
- Set smart timers and program schedules that work with your routine
- Easy operation for out of reach windows
- Convenient for rooms with multiple windows

Available in a Choice of Blind Styles!

- ~ Duette Blinds
- ~ Pleated Blinds
- ~ Roller Blinds
- ~ Day & Night Blinds

Testimonials

5-Star Rated on [Google Maps](#)

 **Jordan Spartan**
3 reviews

★★★★★

I had window shutters installed throughout my home today and I'm genuinely impressed. The installer Sohaib was professional, punctual, and clearly takes pride in his work. The shutters look fantastic and were fitted with great attention to detail. The whole process was smooth from start to finish. Highly recommend!

 **Katie Brewer**

★★★★★

Great blinds and very good communication, checking everything working before leaving. Would thoroughly recommend

 **linda mercado**
1 review

★★★★★

I am very pleased with my shutters. Absolutely stunning will definitely recommend this company. They are good value for money, excellent service and completed just before Christmas.

Local Guide · 14 reviews

★★★★★ 2 months ago

Fantastic experience with these guys. Superb customer service, great quality and so much more affordable than competitors, not a combination you usually get!

Lots of advice given about the best configuration for our windows. Full payment not requested until we'd seen them fitted and confirmed we were happy.

Came recommended by my parents, now I've had a good experience and have recommended to friends.

 **Mihai Anghel**
4 reviews

★★★★★ a month ago

We recently had shutters fitted and couldn't be happier with the whole experience. From start to finish, the service was outstanding – professional, reliable, and honest. The quality of the shutters themselves is excellent, but what really stood out was the attention to detail in the fitting. Every step was carried out with care, precision, and pride in the work.

It's rare to find someone you can completely trust in your home, but Sohaib put us at ease straight away. He was clear, transparent, and delivered exactly what he promised.
